

GAMBUS SOLUTIONS
PRESENTS SEAMLESS
TRANSITION TO

**GAMBUSTRAKZEE
PLATFORM**

FOR A THRIVING FUTURE

WELCOME TO GAMBUS TRAKZEE PLATFORM

Introducing the **Gambus Trakzee Tracking Platform**, highlighting its advantages, presenting a seamless transition plan, and conclude with the benefits of making the switch.

Vehicle Management at Glance

The screenshot displays the Gambus Trakzee Tracking Platform interface. On the left, a sidebar contains navigation icons for Dashboard, Tracking, Reports, and Settings. The main area is split into a vehicle list on the left and a satellite map on the right.

Vehicle List:

Vehicle ID	Status	Location
07-05-2023 10:10:06	Running	Nigeria (NW)
EZEBUIKE TRADING	Running	[2]
LZZ5BLNE7AW552650 - H...	Running	New Festac Bridge Road, Kirikiri, Amuwo, Amuwo Odofin, Lagos, Nigeria (SE)
LZZAELND7AC130988 - H...	Running	New Festac Bridge Road, Kirikiri, Amuwo, Amuwo Odofin, Lagos, Nigeria (SE)
GAMBUS ENERGY	Running	[11]
LSD 661 HW - TOYOTA CA...	Running	Somolu, Obanikoro, Shomolu, Lagos, Nigeria (SE)
JOEGLAD CONCEPT	Running	[11]
LZZPCL5B8N1250139 - HO...	Running	Enugu - Port Harcourt Expressway, Osisime Ngwa, Abia, Nigeria (SE)
MEGABUILD RESOURCES	Running	[11]
LZZPCL5B7N1236460 - HO...	Running	Ife Ikoi, Oken, Uyo, Akwe Ibom, Nigeria (SW)
NWANAPA ENETRPRISES	Running	[11]
LZZ5CL5B8NA050059 - H...	Running	2.28 km from Ogbede/igbb-Eriti, Enugu, Nigeria (SE)
SPRING FIELD AGRO	Running	[21]
M23M3DNA1319M - MAH...	Running	Eastern Nigeria Development Corporation Calaro Estate, Niger...
M23M3DNA1336M - MAH...	Running	6.41 km from Anigeje, Nigeria (SE)
M23M3DNA1286M - MAH...	Running	Eastern Nigeria Development Corporation Calaro Estate, Niger...

Map Details: The map shows a satellite view of a residential area in Lagos, Nigeria. A red location pin is placed on the map, corresponding to the selected vehicle 'LSD 661 HW'. The map includes various street names like Ogunmefun St, Oshineye St, and Bawala St. Other landmarks such as 'Read and Earn Mall+', 'Carwash', and 'School' are also visible.

Vehicle Details Panel (Right):

- Status:** Stopped
- Last Trip:** 10.82 km
- Today Activity:** 11 km
- Running:** 00:26 hrs
- Idle:** 00:01 hrs
- Stop:** 09:43 hrs
- Inactive:** 00:00 hrs
- Work Hour:** NA
- Working Start:** 07:52
- Location:** Somolu, Obanikoro, Shomolu, Lagos, Nigeria (SE) (Coordinates: 6.5456461, 3.3745361)
- Avg Speed:** 27 km/h
- Max Speed:** 95 km/h
- Driving Behaviour:** (Section header)

Gambus Trakzee Tracking Platform

EMBRACE THE FUTURE WITH **GAMBUS TRAKZEE PLATFORM:** ELEVATE YOUR LOGISTICS EXPERIENCE

Dear Valued Customer,

I hope this message finds you in great spirits. We are thrilled to announce a momentous development at Gambus Energy Ltd: the introduction of our cutting-edge Trackzee Platform, an upgrade to your current Zon Platform.

With great pride, I present to you an attached introduction to this revolutionary platform, where you will find an array of enumerated benefits designed to enhance your logistics experience.

We understand the significance of continuity and ease in your operations, which is why we are committed to providing a smooth and seamless transition from the existing Zon Platform. Rest assured, this transition comes at absolutely no cost to you, and you will continue to enjoy our impeccable professional after-sales service.

As esteemed customers like you are at the heart of our business, our dedicated Customer Care Personnel will be reaching out to you very soon to meticulously plan and execute your integration onto the Gambus Trackzee Platform. You can trust that our team will be there every step of the way to ensure a seamless and delightful experience.

Gambus Energy Ltd has always strived to be at the forefront of innovation in the logistics industry, and we firmly believe that the Gambus Trackzee Platform will revolutionize the way you manage your logistics operations. It is an opportunity to gain unprecedented efficiency, insights, and growth for your business.

We eagerly anticipate the pleasure of welcoming you to our esteemed community of valued customers on the Gambus Trackzee Platform, where you'll find unparalleled efficiency, transparency, and reliability.

Thank you for your continued trust in Gambus Energy Ltd. Together, we will embark on a journey to redefine excellence in logistics.

Best regards,

BR Ayoola Olaitan
CEO, Gambus Energy Ltd

INTRODUCING GAMBUS TRAKZEE TRACKING PLATFORM

The **Gambus Trakzee Tracking Platform** is a modern and advanced telematics solution designed to meet the evolving needs of businesses. It empowers businesses with efficient tracking and management of vehicles, assets, and workforce. With real-time tracking, geofencing capabilities, and customizable reports, the platform provides live visibility, proactive alerts, and data-driven insights. Its user-friendly interface and seamless integration enable businesses to optimize operations, improve productivity, reduce costs, and enhance customer satisfaction.

KEY FEATURES

- Offers a live view of assets directly on the dashboard, eliminating the need to individually select each asset for monitoring
- Provides a Visual playback Report
- Customizable Reports
- Shows Photographic Evidence of vehicle
- Remote Immobilisation

MONITORING **FUELING** OPERATIONS

Eliminate fuel theft, under refueling, and fuel frauds

Track fuel expenses and monitor fuel cost per mile

Complete transparency into fuel levels and consumption

Establish better fuel economy to cut costs

ADVANCED FUEL MONITORING

Fuel Monitoring: Optimize Fuel Resources

Gain precise insights into fuel consumption, usage patterns, and efficiency.

Identify opportunities for cost savings by eliminating fuel wastage.

Make data-driven decisions to enhance fuel economy and overall efficiency.

Identify Cost-Saving Opportunities

Pinpoint areas of potential cost savings by eliminating fuel wastage and inefficiencies.

Strategically plan refueling stops and routes to minimize fuel expenses and optimize delivery schedules.

Empower your fleet management decisions with actionable data to enhance overall efficiency.

Fuel Economy at Your Fingertips

ADVANTAGES OF GAMBUS TRAKZEE PLATFORM

The screenshot displays the GAMBUS TRAKZEE platform interface. On the left, a sidebar menu includes 'Dashboard', 'Tracking', 'Reports', and 'Settings'. The main area is split into two panels. The left panel shows a table of live assets with columns for status, time, and location. The right panel shows a satellite map with a red location pin and a detailed activity sidebar on the far right.

The map view shows a satellite view of a residential area in Lagos, Nigeria. A red location pin is placed on a building labeled 'LSD 661 HW'. The activity sidebar on the right shows 'Stopped' status, a last trip of 10.82 km, and today's activity of 11 km. It also lists driving metrics: Running (00:26 hrs), Idle (00:01 hrs), Stop (09:43 hrs), Inactive (00:00 hrs), and Working Start (07:52). The location is identified as Somolu, Oshodi/Isolo, Lagos, Nigeria (NW) with coordinates 6.5456461, 3.3745361. Driving behavior shows a current speed of 27 km/h and a maximum speed of 95 km/h.

DISPLAYS FULL BREAKDOWN OF LIVE ASSETS INCLUDING LIVE LOCATION ON THE DASHBOARD

This feature provides a comprehensive and real-time overview of all assets in a single glance, enhancing operational visibility and efficiency. With a live view of assets on the dashboard, businesses can easily track their fleet or assets' locations, statuses, and other essential details without the need for manual selection or navigation.

ADVANTAGES OF GAMBUS TRAKZEE PLATFORM

VISUAL PLAYBACK: One of the unique and valuable features of the **GAMBUS TRAKZEE PLATFORM** is its ability to provide visual playback of historical tracking data. This feature allows users to replay and analyze past routes, activities, and incidents that have been captured by the tracking system.

- Unique feature: Visual playback of historical tracking data
- Replay and analyze past routes, activities, and incidents
- Gain valuable insights and identify optimization opportunities

ADVANTAGES OF GAMBUS TRAKZEE PLATFORM

FLEET PROTECTION
WITH ADAS-ENHANCED
MDVR

BENEFITS:

1. Collision Avoidance
2. Geofencing
3. Traffic Optimization
4. Asset Tracking and Management

PROXIMITY AWARENESS: Proximity awareness refers to the capability of the software to detect and monitor the proximity or distance between vehicles, assets, or objects in real-time. It leverages various technologies such as GPS (Global Positioning System), geofencing, and sensor data to provide accurate information about the relative positions of entities. Proximity awareness in the software enhances situational awareness, improves safety, and enables efficient management of vehicles, assets, and resources. It leverages real-time data and technologies to provide valuable insights that support decision-making and operational efficiency.

ADVANTAGES OF GAMBUS TRAKZEE PLATFORM

- INCLUDES:**

 1. Live streaming
 2. Collision Detection
 3. Remote Viewing
 4. History Playback
 5. Event Clips
 6. 24X7 Surveillance

VIDEO TELEMATICS: Video telematics is a technology that combines video recording and data collection to provide an extensive view of a vehicle's operations. Video telematics systems are equipped with cameras that capture footage of the fleet's surroundings and driver's actions. The systems also collect data such as speed, location, and vehicle diagnostics. Video telematics technology offers a range of features that can help businesses optimize their fleet management. Live streaming, history playback, event clips, driver event reports, driver violation reports, driver performance analysis, and 24X7 surveillance all contribute to enhanced safety, reduced costs, and increased efficiency.

BENEFITS OF HAVING TPMS:

1. Improved Safety
2. Increased Fuel Efficiency
3. Extended Tire Life
4. Reduced Downtime
5. Improved Efficiency
6. Compliance with Regulations

TIRE PRESSURE MONITORING: TPMS is a technology that monitors the tire pressure of vehicles in real time. It alerts the driver if the tire pressure drops below a certain level, indicating that the tire needs to be inflated. TPMS is a mandatory feature in many countries and is included in many modern vehicles. In conclusion, TPMS is a critical technology for fleet management. It provides real-time data on tire pressure, improves safety, increases fuel efficiency, extends tire life, reduces downtime, improves efficiency, and ensures compliance with regulations. By incorporating TPMS, fleets can save money, reduce risk, and operate more efficiently. If you haven't already, it's time to consider integrating TPMS into your fleet management strategy.

ADVANTAGES OF GAMBUS TRAKZEE PLATFORM

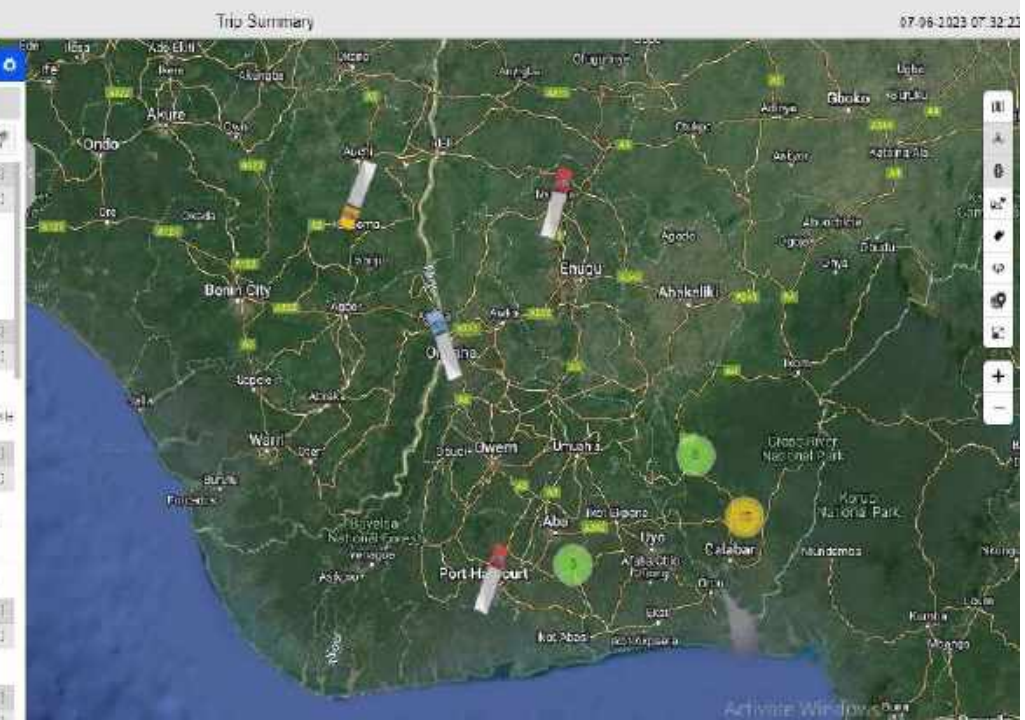

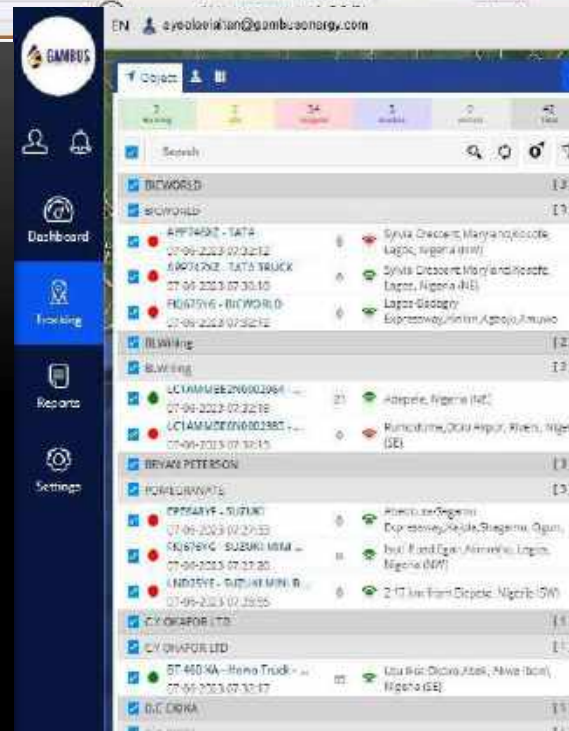

Robust Reporting Capabilities:

- Customizable reports and analytics for tailored insights
- Comprehensive reporting to support data-driven decision-making
- Real-time tracking data presented in clear and actionable formats

Mobile Accessibility:

- Access real-time data and manage assets on-the-go
- Mobile app for convenient monitoring and control
- Stay connected and make informed decisions anytime, anywhere

SEAMLESS TRANSITION PLAN :MOVING TO **GAMBUSTRAKZEE TRACKING PLATFORM.**

DATA MIGRATION

Data migration is a critical aspect of transitioning from a telematics platform to the **GAMBUS TRAKZEE TRACKING PLATFORM**. It involves the extraction of data from the existing platform, followed by formatting and transforming it to align with the requirements of the **GAMBUS TRAKZEE TRACKING PLATFORM**.

PLATFORM SETUP AND CONFIGURATION

To implement the **GAMBUS TRAKZEE TRACKING PLATFORM**, the setup and configuration process involves installing the software, entering company details, and customizing the platform to meet specific needs. This ensures optimal functionality and allows businesses to tailor the platform according to their requirements.

TESTING AND VALIDATION

The **GAMBUS TRAKZEE TRACKING PLATFORM** undergoes rigorous testing to ensure its functionality and performance, with technical support readily available to address any issues or concerns that may arise during the testing phase.

EMPLOYEE TRAINING AND SUPPORT

Training programs and resources are provided for employees to smoothly transition to the **GAMBUS TRAKZEE TRACKING PLATFORM**. This includes training materials, documentation, online resources, and ongoing support channels for addressing user queries and issues.

CONCLUSION AND BENEFITS OF SWITCHING TO **GAMBUS TRAKZEETRACKING PLATFORM**

1. Improved Efficiency:

Streamlined operations with advanced features and real-time tracking capabilities. Optimize routes, reduce fuel consumption, and increase overall productivity.

2. Enhanced Reporting Capabilities:

Comprehensive and customizable reporting for data-driven decision-making. Gain valuable insights into fleet performance, driver behavior, and operational metrics.

3. Better Integration:

Seamlessly integrate with existing business systems, improving data flow and coordination. Enhance overall efficiency and eliminate manual data entry or duplication.

By switching to the **GAMBUS TRAKZEE TRACKING PLATFORM**, clients can unlock numerous benefits, including improved operational efficiency, enhanced reporting capabilities, and better integration with existing systems. Our team is dedicated to supporting the transition process, providing training, documentation, and ongoing technical support.

We encourage you to make the switch to the **GAMBUS TRAKZEE TRACKING PLATFORM** and join the growing community of satisfied clients who have experienced the transformative power of our advanced telematics solution.

Make the move today and empower your business with the **GAMBUS TRAKZEE TRACKING PLATFORM** cutting-edge features and exceptional support.

THANKYOU!
